

Accepted at top-ranked schools worldwide

The GRE[®] General Test

Take the test that is accepted by 10,000+ graduate programs worldwide, including business and law.

The GRE is the only test used across a broad range of graduate programs, which means you can go for a second degree in another field without needing to take another test.

Use the test-taker friendly design to do your best.

Preview questions, skip and go back to more challenging questions and even change your answers, all within a section.

Send only your best scores.

GRE tests provide the ScoreSelect[®] option, which means you can take a GRE test once now, or again in the future, and only send the scores from the test date(s) you feel reflect your best effort. Scores are valid for 5 years, so you have time to decide how to use any of your scores.
